

Ventura County Comets
AMA Chapter 173
Li-Po Power Compliance Safety Form

The ultimate responsibility for the safety and airworthiness of RC aircraft using Li-Po batteries rests solely with the owner and/or pilot. All items listed must be certified (initialed) by the undersigned prior to securing authorization to operate/fly RC model aircraft using Li-Po batteries at the Comets Flying Site.

I have read and will conform to the requirements published in the document entitled *Charging Lithium Polymer (Li-Po) Cells* posted on the Comets Web Site (WWW.VCCOMETS.COM).

Init _____

Prior to operating / flying RC aircraft using Li-Po batteries at the Comets Flying Site, I will verify that all requirements established in the document entitled *Li-Po Battery RC Aircraft Safety Check List* posted on the Comets Web Site (WWW.VCCOMETS.COM) are in compliance.
